

EVENTS CATALOG

LET'S LIGHT

► vimeo.com/144477868

Let's Light is an interactive installation featuring a cube with four interactive faces.

When passing by or interacting with it, the installation transforms any people into pixels!

The shape of this installation can be customized into corridors or other shapes.

Useful information

- Works indoor and outdoor
- Colors of the design can be changed
- Need 2x 16A electricity supply
- Each cube face is 2x2m

SMART SIGN

► vimeo.com/115248559

Finding your way, made fun!

In everyday life, Smart Sign augments your reality to help you find quickly your way, in an interactive and fun manner!

We use Smart sign as smart signage for events or for entertainment.

Useful informations

- Need to be hanged on the ceiling
- Need a videoprojector
